Extreme Risk (0)

**This county qualifies for Extreme Risk but is placed at High Risk because the statewide hospitalization trigger for Extreme Risk has not been met.*

¹ Grant County qualifies for High Risk but is given a two-week caution period at Lower Risk because it moved down from Moderate Risk in the previous movement period.

² Malheur County qualifies for Moderate Risk but is given a two-week caution period at Lower Risk because it moved down from Moderate Risk in the last movement period.

³ Umatilla County qualifies for High Risk but is given a two-week caution period at Moderate Risk because it moved down from High Risk in the last movement period.
